

Citizen's security needs vs citizen's integrity

Anke van Gorp

TNO | Knowledge for Business

Privacy

- Sometimes enough to look at personal data
- Example CPSI (Changing Perceptions of Security Interventions)

Profiling

- Non-distributive properties
- Using profiling
- Informed consent procedures no solution

Profiling

- Intellectual property rights/ security
- Opacity of citizens's

profiling

- Privacy enhancing technologies no solution
- Perhaps transparency enhancing technologies

Relevance to security technologies

- Require gathering all kinds of trivial data
- Data from different sources are combined
- Use profiling techniques
